

Alcan G3 Expansion

Gove, Northern Territory, Australia

**Client**

Alcan

Location

Gove, Northern Territory, Australia

Project Scope

Detailed Design Package

Period of Work

2004 - 2006

Project Description

Uhde Shedden undertook the detail design of a number of pre-assembled modules (PAMs) which were shipped by barge for the G3 expansion of Alcan's Gove alumina refinery. The project involved over 60,000 manhours of detail design for process and piperack PAMs weighing up to 500 tonnes

The design work was undertaken in Uhde Shedden's Map Ta Phut (Thailand) office. Fabrication of the modules, under a parallel contract, was by Clough Thailand.
